

LightPipe[®]
Bring Natural Light to Indoors

Transform Spaces with Natural Daylight

Lightpipe[®] by Skyshade delivers high-quality natural daylight deep into buildings, reducing dependence on artificial lighting and enhancing occupant comfort.

High-performance
daylighting solution.

Energy efficient &
sustainable.

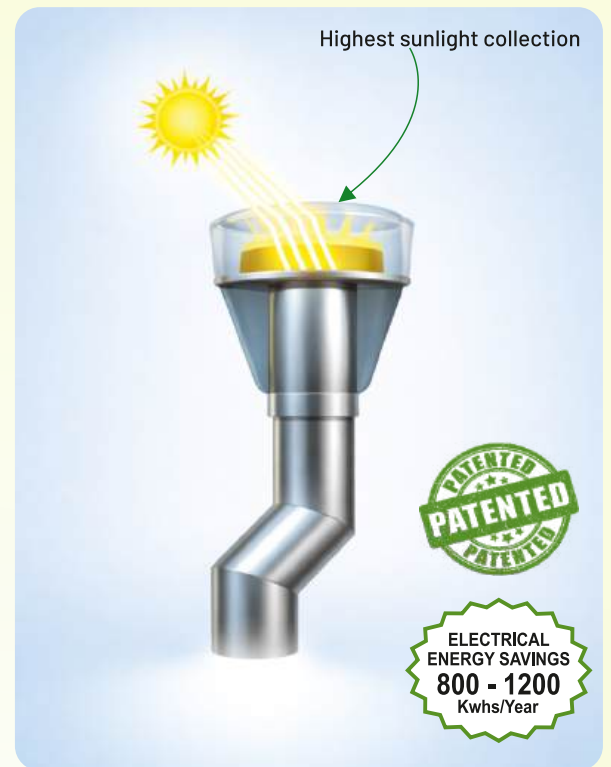

Suitable for commercial,
industrial spaces.

How Lightpipe® Works

Lightpipe® captures sunlight at roof level using a high-performance collector and transfers it through ultra-reflective conduits. Specially designed diffusers distribute uniform, comfortable daylight exactly where it's needed.

Designed for Maximum Performance

- Large, optically engineered sunlight collectors.
- Ultra-high specular reflective conduits for superior light transmission.
- Consistent daylight delivery up to 15 m (50 feet).
- Glare-free, evenly diffused illumination.

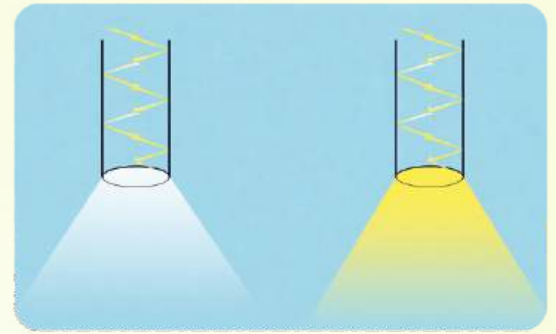

Perfect For

- Offices & commercial buildings.
- Pharma, hospitals & institutions.
- Factories & warehouses.
- Basements, corridors & enclosed areas.

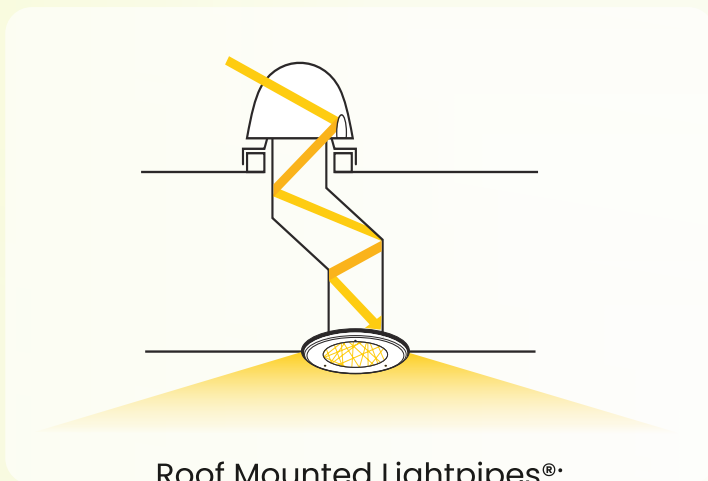

Unmatched Daylighting Performance

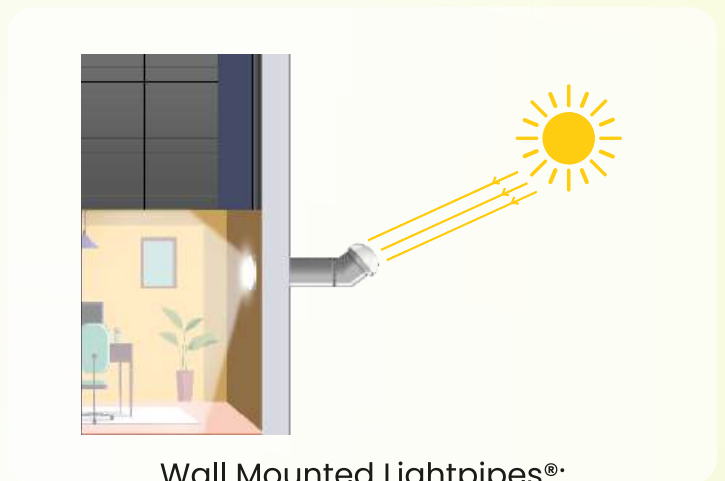

- Highest light output.
- No colour shift.
- Leak-proof metal kerb system.
- Robust, low-maintenance construction.
- 5-year product warranty.

Roof & Wall Mounted Lightpipes®

Roof Mounted Lightpipes®:

Wall Mounted Lightpipes®:

Lighting controls with daylight harvesting:

When combined with Skyshade's intelligent daylight sensors and lighting controllers, Lightpipe® delivers even greater efficiency.

- Up to 25% additional energy savings.
- Automatic ON/OFF control of electrical lighting.
- Lower electricity bills and operating costs.
- Fast return on investment.

Why Skyshade

Lightpipe® is manufactured by Skyshade, the largest and most trusted name in daylighting systems. With decades of experience, multiple daylighting technologies, and a dedicated R&D centre, Skyshade delivers proven, award-winning solutions.
